Class : 3 MS1

Dridi Saadi Middle School

Third Term Test N^0 01 of English

Date :08/ 04/2018

The Sumatran tiger lives on the small island of Sumatra In Indonesia. It lives in rainforest and tropical woodland. It is a fast animal .It can run up to 43 km/h. It sometimes swims. Female has two or three babies, every three years. It's grey, brown and black. It has got large feet; it is about 2 or 3 meters tall and weighs between 3.000 to 5.000 kg. The Sumatran tiger normally eats grass but it likes eating fish, too .Tigers live up to 70 years. They live in groups. There are only 400 of these tigers now on Sumatra. People pollute their area and destroy their habitat. Also hunt them for clothing or decorative items.
