اختبار الفصل الأول

Text:

I used to go to a small village high school. I used to go there on foot but when it rained I went by bus.

We had maths, English, history, Latin and Greek. I didn't mind Latin, but I hated Greek. I didn't use to have computer science because computers didn't exist at that time. I didn't go to an all boys' school. My sister too, didn't go to an all girls' school. We preferred to go to a co-educational school. Co-educational schools had better teachers and students.

I remember, I used to wear a uniform and girls used to wear a white blouse and a long dark skirt. Men and women teachers too, used to wear formal clothes. Today when you look inside the class room, it is difficult to tell who are the teachers and who are the students.

School regulations were very strict. Student who didn't behave well or used to talk in class were compelled to write thousands times the line *"I must not talk in class"*.

By the end of the year, we used to organize a big party. All parents came to share with us the fete and the best students were congratulated and were given nice presents by the headmaster and teachers.

Oh! How time flies! I miss the good old days and feel sorry that time goes by so quickly.
