Chihani Bachir School

Duration : 1h30mn * Third Term Exam 4AM *2016/2017

Violence has become a serious problem in our schools nowadays. Teachers think that this problem is due to the lack of parents' care at home and at school , too. Teachers also believe that certain types of parenting produce children who participate in school violence . The influence of TV on the students behavior is another main cause .

In addition , with more and more working outside the home, students are very aware that it's difficult for school officials to contact their parents , and even if they do, their parents often refuse to respond . The parents may also refuse to come to school when asked if a child has been in trouble repeatedly , because they are tired of dealing with the children's problems. They believe that the school is faulty , or there's nothing they can do to control children .

Another major factor contributing to violence in school, is the presence of gang and addition to drugs . The problem of violence is becoming the primary concern of parents and the whole society .

Adapted from: Internet (hyperlink)
