Text:

Save our forests!

Forests are very important. They produce the oxygen we breathe every day. **They** are the source of wood and the home of many plants and animals. They are also comfortable places where we can relax during week-ends and holidays.

Unfortunately, every summer we hear about terrible forest fires **which** destroy millions of trees. Most of these fires are caused by men.

When people go for a picnic, they mustn't leave the forest before putting out their fires. And, of course, car drivers and passengers mustn't throw cigarettes out of their car windows. If we want to see and keep our country always beautiful and clean, we must protect nature.
