Muhamed Turki Secondary School	Second Term Test for 2nd FL Classes
Full Name. _____	

Read the Text then do the below activities.

Have you ever wondered where the word "Algorithm comes from?" Algorithm comes from the Latinized name for a very special man- Al Khawarizmi. He developed the science of mathematics and basically invented Algebra as we see it today and contributed to so many more that his name was used to describe algorithms. Al Khawarizmi, was born in the area orginally known as the Fertile Cresent and later as Baghdad, he was a Muslim mathematical scholar. His full name was Abu Ja'far Muhammad Bin Musa Al Khawarizmi. From this, we are sure that he was the son of a man named Musa, the Qur'anic name for Moses, but due to Arab culture, his mother's name is not known. He lived through the Islamic empire during the Abbasid Period and was under the rule of two kings, Ma'mun and Haroon Rasheed. Druring this time, science and religion were coexistant as Muslim scientists ant scholars worked effortlessly to piece together an understanding of the world.
