Third Term Test

Text :

Social Media are means of communication that facilitate the creation and sharing of information, ideas, and interests via networks such as Facebook ,Twitter and Instagram. They help in communicating through laptops, smartphones and tablets. For instance, Facebook was created in 2004 and it was founded by Mark Zuckerberg. It is one of the most influential networks around the world.

Social Media has some advantages. It educates people ; It can help both teachers and students. People get the latest news everyday in a very short time. Moreover, it serves as a good source of entertainment. People get entertained through documentaries and other programs. Also, it helps in finding new jobs and improving business.

On the other hand , Social Media has disadvantages. It helps in bullying .Many children were bullied on the internet which led to suicide. Furthermore, it wastes time and causes addiction. The long hours people stay searching and chatting lead them to be far from their families . In addition, the excessive use of social media can also have a negative impact on the health such as sight problems and obesity .

So, people should be aware how to use the Social Media and should be so careful about its danger .
