SECOND TEST OF THE THIRD TERM

Text:

Algeria is a land of biodiversity. It has a rich national heritage which is a home of several national parks. One of these include Tassili N'Ajjer National Park.

Tassili N'Ajjer National Park is situated in South East of Algeria at the borders of Libya, Niger and Mali, covering an area of 72,000 sq. km. It is best known for its sandstorm and mountain range, complete with impressive rock arches and paintings, and engravings other landforms. In 1986, UNESCO declared the Tassili N'Ajjer National Park a Biosphere Reserve under its protection, it is second on the IUCN List of Protected Areas. It is home to a number of endangered fauna and flora. The Tassili is the only place on earth where the Saharan Cypress or Tarout, one of the rarest and endangered tree and Saharan Myrtle. It is a home of different endangered animal species like Barbary red deer, Dorcas gazelle.
