Teacher: Miss Benallou ***School Year: 2017- 2018***

Class: 3YMS ***Timing: 1h30m***

The Third Term Exam of English

Penguins

Penguins are one of the most beloved animals in the world. They are found in many areas in the southern hemisphere. Most people think of penguins as living in very cold climates like the icy continent of Antarctica, but they also live in more temperate areas like the Galapagos Islands, Australia, and South Africa.

Penguins are very funny animals. They are birds that cannot fly, but love to swim. They can swim very fast and can leap out of the water and dive deep looking for food. Penguins all have a similar Shape, and on average, adults are about 1.1 m tall and weigh 35 kg. They are mostly black and white in coloring, which provides an excellent camouflage in the water. Penguins have excellent eyesight and hearing. Penguins mostly eat fish, also krill, squid and octopus.

They are in danger of extinction because of people's carelessness, bycatch and climate change. They are also being damaged by dirty water in the ocean.

PART ONE: Reading comprehension (7pts)
