اختبار الفصل الثّاني

Name: ……

Text:

Pollution is a serious problem. **It** is the contamination of air, water, and land by rubbish, chemicals and smokes. There are mainly four types of pollution: Air, water, land and noise pollution.

The emission of smokes from factories and cars are big causes of air pollution **which** is the most dangerous type. Air pollution causes acid rain, smog, and a hole in the ozone layer. Water is also suffering from pollution because of the millions of tons of litter that are thrown into seas and oceans every year. Therefore, millions of fish are dying yearly.

Land Pollution is mainly caused by the pesticides used by farmers to fertilize the soil. Factories, planes and cars in big cities cause noise pollution that may cause some serious health problems like headache and deafness.

Finally, people must stop damaging the environment. **They** should lessen pollution by using the **3Rs**: Reduce, reuse, and recycle. Also, government must take measures to fight this serious universal problem.

(Adapted from Isl.collective English.com)

Part One (14pts)

Task one: Reading Comprehension (07 pts)

A/ I choose the most appropriate title: (0.5pt)

a- Types of pollution. **b-** Pollution: causes and effects. **c-** How to fight pollution.

B/I answer these questions:

a) **How many paragraphs are there in this text?** (0.5pt)
There are.....

b) **In which paragraph does the writer give some solutions to protect and preserve the environment? (0.5)**
Paragraph n°.....

C/ What do the underlined words in the text refer to? (1pt)
which:……..…… .they:……...……

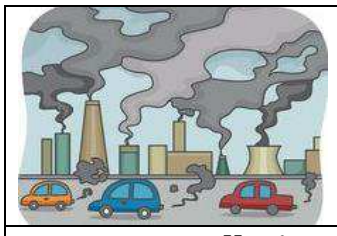

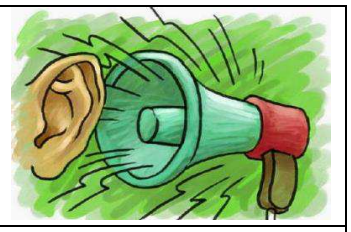

D/ I read the text then I say if these sentences are true, false or not mentioned. (1.5pt)

Sentences	True	False	Not mentioned
1) Acid rain is caused by water pollution.			
2) Farmers use pesticides to grow up vegetables and fruits fast.			
3) Recycling rubbish may stop land pollution.
