Class TCL **May 2023**

Third term test

Water pollution is the contamination and accumulation of toxic elements and impurities in water due to human activities. Water pollution is a serious problem **that** is threatening our world, and to find a solution, we will need first to find the source of its origin.

Water pollution is caused by human activities like intensive agriculture, urbanization, deforestation, and industrialization that have escalated water bodies' pollution such as rivers lacs and seas.

As water is an important element of human health, polluted water directly affects the human body. Water pollution causes various diseases like typhoid, cholera, hepatitis, cancer, etc. Water pollution damages the plants and the aquatic animals by reducing the oxygen content from the water. Polluted water washes the essential nutrients, **which** plants need out of the soil and leaves large amounts of aluminum in the soil, which can be harmful to plants.

We cannot just live with contaminated waters filled with toxins and no oxygen. We cannot see our wildlife being destroyed and therefore we need clean water for our survival, and it is our responsibility to conserve it.

<u>Part one:</u> Reading comprehension

1-**what is the type of the text? Circle the right answer.** **1pt**

a- Narrative b- descriptive c- expository

2- **Say whether the following statements are true or false** **2pts**

a- Water is a very valuable liquid that we need it for survival
b- Man's industrial activities don't cause water pollution
c- Polluted water is not dangerous on people's health
d- Humans can't survive if water pollution problem is not treated.

3- **Answer the following questions according to the text** **3pts**

1- What is water pollution?

.....

2- What is the main cause behind water pollution?

.....

3- Is polluted water a threat on human's life? Justify

.....

4 Who or what do the underlined words refer to in the text? **1pt**

That§ 1 = which §3 =

Part two: **text exploration**

1- Find in the text words that are closest in meaning to the following: **1pt**

Poisonous (§1)= protect(§4)=

2- Find in the text words that are opposite in meaning to the following: **1pt**

Reforestation (§2)# clean (§4)#

3- Add suffixes to the following words to form adjectives **2pts**

Words	Adjectives
Poison	
success	
damage	
harm	

4- Put the verbs between brackets in the right form **3pts**

a- If you (to heat) water at a 100°, it (to evaporate)

……..

b- I (to go) to the zoo if it (to be) sunny

……

c- If I (to win) my baccalaureate, I (to finish) my studies in England.

……

5- Classify the words according to their final ed pronunciation **1pts**

Damaged polluted preserved helped contaminated

/T/	/D/	/ID/

Part Three: **Fill in the blanks with the appropriate words** **5pts**

Temperature hotter rise world disaster colder increasing

Global warming is the continuous …….. in the level of the earth's temperature. Our earth's surface is becoming ……..day by day just because of some unnoticeable habits of human beings all across the world. There are many reasons behind this……. global warming. It is a man-made …….. which is gradually affecting the whole environment all over the …… since many years.

Correction

Part one: Reading comprehension

1-what is the type of the text? Circle the right answer. 1pnt

b- Narrative b- descriptive c- expository

2- Say whether the following statements are true or false 2pnts

e- Water is a very valuable liquid that we need it for survival true
f- Man's industrial activities don't cause water pollution false
g- Polluted water is not dangerous on people's health false
h- Humans can't survive if water pollution problem is not treated. True

3- Answer the following questions according to the text 3pnts

4- What is water pollution?
Water pollution is the contamination and accumulation of toxic elements and impurities in water due to human activities.

5- What is the main cause behind water pollution?
Water pollution is caused by human activities like intensive agriculture, urbanization, deforestation, and industrialization

6- Is polluted water a threat on human's life? Justify

7- Yes, it is a threat, because polluted water directly affects the human body. Water pollution causes various diseases like typhoid, cholera, hepatitis, cancer, etc. Water pollution damages the plants and the aquatic animals by reducing the oxygen content from the water.

4 Who or what do the underlined words refer to in the text? 1pnt

That§ 1 = water pollution which §3 = essential nutrients

Part two: text exploration

6- Find in the text words that are closest in meaning to the following: 1pnt

Poisonous (§1)= clean protect(§4)= preserve

7- Find in the text words that are opposite in meaning to the following: 1pnt

Reforestation (§2)# deforestation clean (§4)# contaminated

8- Add suffixes to the following words to form adjectives 2pnts

Words	Adjectives
Poison	poisenous
success	successful
damage	Damaged
harm	Harmful
