Third Term English Exam	Matière : English	Time: 1h30

Text:

We can communicate with other people in many different ways. We can talk and write, and we can send messages with our hands and faces. There is also the phone, the fax, and e-mail. Television, films, paintings and photography can also communicate ideas.

Animals have ways of exchanging information, too. Bees dance and tell other bees where to find food. Elephants make sounds that human can't hear. Whales sing songs. Monkeys use their faces to show anger and love. But this is nothing compared to what people con do. We have language. About 6000 languages, in fact. We can write poetry, tell jokes, make promises, explain, tell the truth or tell lies. And we have a sense of past and future, not just present.

Radio, films, and television have had a huge influence on society in the last hundred years. And now we have the internet. We can give and get a lot of information very quickly. But there is so much information that it is difficult to know what is important and what is not.
