إختبار الفصل الثاني في مادّة اللغة الإنجليزية

Text : Hassen Ibn Haithem was a Muslim scientist who was born in 965 in Basra, Iraq. He made important contributions to the understanding of optics, vision and light. He's known as the creator of modern scientific methods. Through his book of optics "Kitab El Manazir", his ideas influenced European scientists. Today, many consider him as the father of modern optics. He lived during a creative period which was known as the golden age of Muslim civilization that saw many fascinating advances in science, technology and medicine. He died in 1010 in Cairo , Egypt.
