Date: May 14 th , 2018 **The Third Term English Exam** **Time : 1h 3**

Text:

All around the world there are species of animals that are to disappear forever . National Parks are places **where** people take care of rare animals , plants and birds . Today there are zoos and National Parks in almost every country in the world . There are also laws against killing some animals . But hunters kill some animals for **their** skin and fur . Many people just love to wear coats , belts and shoes from the fur or the skin of the animals . Of course , people can 't stay indifferent to these problems. There are a lot of special organizations , which try to save our nature . The most known are: The World Wildlife Fund (WWF) and Greenpeace .

These organizations helped to create more than 250 National Parks . Greenpeace began its work 20 years ago . And now Greenpeace is a world –famous organization, which saves plants , animals and people .These organizations want to rescue animals , to help them to survive and to save jungle rain forests ,which are in danger of destruction . And they also help animals because many of them have already gone ,as they have nowhere to live .Their homes ''the trees'' have disappeared . We must save wild animals . And we must find the right way to save land , people and animals . We must take care of nature because we are part of it .

Adapted from'' Esl printable''

I Read and Do

Task One : I read then I answer the questions (3 pts)

1- Give a title to the text .
2- Why do people kill animals ?
3- Must we take care of nature ?

Task Two : I read then I say what do the underlined words refer to (2 pts)

- where : .....

-their : .....

Task Three : I match words with their definitions (2 pts)

- Extinct	- An area of land that is reserved by the government
- National parks	-animal or plant existing in a very small number.
-Rare	-to save from any violence, danger or evil .
-To rescue	- No longer in existence, having died out.

I Practise

Task One : I fill in the passage with the following words (2 pts)

Region – mammal – meters – Canada

A polar bear is a ..... animal . It lives in Arctic Circle , ...and Greenland . It lives in very cold ..... . It is very big ,up to three ..... long and very dangerous .

najah213.com · نجاح 213

Task Three : I fill in the table (2 pts)

Adjective	Comparative
Short	.....
.....	Luckier than
Big	.....
Good	.....

Task Four : I mark the intonation of each question (-) (1.5 pts)

a- Are there any litter bins in your school?
b- How can litter be dangerous to wild life ?
c- Must we save endangered animals ?

I Think and Write

Many animals are in danger of extinction because of pollution , forest fires , deforestration .....

Elephants which are the biggest land animals are one of these endangered species . I use the information in the profile to write a paragraph about them.

Common Name : the elephant **Classification :** mammal **Diet :** herbivore Lifespan **:** 70 years **Height** : 3.5 meters **Habitat :** Africa and Asia **Weight :**6000 kilos **Physical features :** grey colour , no hair , long nose (trunk), white teeth (tusks) **Status :** endangered **Threats :** illegal hunting and cutting down trees **Solutions :** build National parks , stop hunting , protect forests ...	

Good Luck

Happy Holidays
