Reading

A/ Comprehension: Read the text carefully than do these activities.

Today, you can still see amazing clothes in big cities. Some designs are invented by groups of young people **who** like the same clothes. These designs are called street fashions. Are there fashions in your country?

In United Kingdom and many other countries, Goths wear black clothes and white make-up. **They** look like people in a scary movie! In Japan, there's a street fashion called Harajuku because the people in these clothes meet in the Harajuku area in Tokyo.

Your clothes say a lot about you. If you wear a traditional costume, **it** helps you to remember the history and culture of the country you belong to. Other clothes show people your personality. What are your favorite colors? What type of person are you? Are you serious? Are you sporty? Do you like to be fashionable? The answers are in your clothes.

Clothes are interesting and fashion in fun, but remember, people are more important than clothes. Don't be fashion victim 'Just be yourself'!
